

CUMBRIAN RAILWAYS

Index to Volume 12

An air of optimism can be seen in the photograph, taken at the south end of Carlisle Citadel in the 1990s with three different types of train in attractive liveries of the period. The Class 90 locomotive No 90136 is in the Distribution Division livery of Railfreight, Class 86 No 8624 *The Royal British Legion* is seen in the striking InterCity livery whilst the Class 156 SuperSprinter dmu No 156486 carries the Regional Railways livery.
